Nguyen Trung Nghia – Full Stack Software Engineer

Phone: 0799256654 / Email: nghia250803@gmail.com GitHub LinkedIn

SUMMARY

A graduate in Information Technology with nearly 2 years of hands-on experience in Software Engineer, specializing in Java programming and web development. Passionate about exploring new technologies and seeking challenging opportunities.

TECHNICAL SKILLS

Backend & Microservices: Java 17, Spring Boot, Spring Cloud (API Gateway, Service Discovery, Config Server), Spring Security (JWT/OAuth2), Spring Data JPA, MyBatis

Event-Driven & Messaging: Spring Cloud Stream, Message Broker (RabbitMQ, Kafka), WebSocket

Performance: Transaction Management, Ehcache, Spring Batch, Redis

Frontend: ReactJS, Next.js, TypeScript, Material UI, Tailwind CSS, TanStack Query, Zustand, Context API, AG Grid

Database: Oracle DB, PostgreSQL, MySQL, Flyway, Query Optimization

DevOps: Docker, Jenkins CI/CD, Linux VPS, AWS Services (EC2, S3, RDS, IAM), Maven/Gradle, Git/GitHub, Zabbix, SonarQube

Others:

- Good understanding of OOP methodologies, SOLID principles, and design patterns
- Experience in Unit & Integration Testing (JUnit 5, Mockito)
- Agile/Scrum mindset

PROFESSIONAL EXPERIENCE

LG CNS Company (Vietnam) – Full Stack Developer **02/2025-Now**

Project: WINA System (4 members, 2 front-end, 2 back-end)

- **Description:** An enterprise system as a metadata-driven platforms featuring granular RBAC, high-performance data grids, and internationalization.
- **Technologies:**
  - Front-end: React, TypeScript, MaterialUI, AG Grid
  - Back-end: Spring Boot, JWT, Ehcache, Oracle DB
- **Responsibilities:**
  - Collaborate in requirement analysis to design RESTful API and optimize database schemas
  - Research in-depth code and develop features using Spring Boot and ReactJS
  - Use Oracle DB to manage and maintain more than 100 tables in the database
  - Optimize data fetching performance using MyBatis and TanStack Query to enhance user experience

Project: Seat Booking App (4 members, 2 front-end, 2 back-end)

- **Description:** A seat booking web app to create and manage seat reservations
- **Technologies:**
  - Front-end: VueJS, Vuex, TypeScript

    - Back-end: Spring Boot, JWT, Transaction, WebSocket, Redis, MySQL, Docker
- **Responsibilities:**
    - Analyze business requirements to design RESTful Api and optimize database schemas
    - Develop backend services using Spring Boot, focusing on transaction integrity and efficient seat-locking mechanism
    - Implement secure authentication and authorization layers using JWT and Spring Security
    - Manage and maintain database with more 10 tables in MySQL, utilizing MyBatis for query tuning and data mapping

Bitsco Company (Vietnam) – Full Stack Developer **04/2024-10/2024**

Project: HPU Website (4 member, 3 front-end, 1 back-end)

- **Description:** A web app used by the school library to manage books, documents
  Technologies:
    - Back-end**:** Spring Boot, Spring Security, JPA
    - Front-end**:** HTML5, CSS3, Bootstrap, jQuery
- **Responsibilities:**
    - Design UX/UI and implement functionalities (both back-end and front-end) based on the requirements of stakeholders
    - Design database schema, use MySQL to manage and maintain more than 20 tables in the database
    - Conduct tests, perform bug fixing, author technical documentation and deploy on production environment

PERSONAL PROJECT

Project: Pomofocus Web App (Check here) **12/2025-01/2026**

- **Description**: Developed an online Pomodoro Timer to boost the productivity
    - **Backend & Persistence:** Developed backend services using MyBatis for efficient data fetching and transaction management
    - **Security**: Used Spring Security with JWT and OAuth2, managed secure state via HttpOnly Cookies
    - **Frontend**: Architected a fast-loading frontend using Vite and ReactJS, implementing routing with React Router and professional UI using MUI
    - **Containerization**: Deployment cycles with Docker
- **Technologies**: Spring Boot, Spring Security, MyBatis, JWT, OAuth2, ReactJS, Vite, Material UI, React Router, Axios, MySQL, Docker, Git, GitHub, Cookie-based Authentication

EDUCATION

Hanoi University of Industry (Vietnam)

- Software Engineering Degree grade: Good - GPA 3.4/4

CERTIFICATIONS

2025 Oracle Certified Professional: Java SE 17 Developer (Check here)
2025 English Competency: TOEIC 765/990
